October 29, 1976

TO: Board of Directors of T.I.T.L.

FROM: William L. Steele

SUBJECT: Report for October 1976

STAFF

No changes.

FACILITIES

A month without any mechanical equipment problems has passed. Considering the many breakdowns and difficulties in the early days, it is an appropriate way to end TITL's first ten years. The space was officially leased November 1, 1966.

ACTIVITIES

The next pickup starts November 1. This time the contractor has only three weeks to complete sampling, two for purchase and one for transit time. Four to five weeks had been allotted previously. From passed experience, a resampling for difficult to locate brands is almost a certainty, so the sampling may still extend into mid-December.

The FTC lab is working up the current test, completing data, checking, calculating, etc. They expect to send their report to the Commission by the 15th of November and are optimistic about its release before December.
